IMPORTANT

DELIVERY. Postage is paid on all orders with the exception of potted plants and shrubs in the first four zones. For shipments farther East, please add 10% for postage. Any excess postage will be returned. On California orders the regular 3 per cent (3%) tax must be included.

TERMS are cash with order unless otherwise arranged.

PRICES. Orders for one dozen are 10 times the single price, and six take the same rate as one dozen. For example, 12 plants at 25c will cost \$2.50, or 6 plants at the same price will cost \$1.25.

WARRANTY. We exercise the utmost care in shipping reliable stock and guarantee their arrival in good condition. In the event of an error, we do not hold ourselves liable for any amount greater than the original purchase price, and reserve the right to replace any damaged stock. Please advise us at once of any complaint, so it can be rectified.

CORRESPONDENCE. We are very glad to answer any inquiries about our flowers. We find from our past inquiries that there are many who would like to have more natives in their gardens but who are not quite sure of what they want and how their garden conditions might meet the need of native plants. In the first place we are located where we have considerable snow and cold weather. This condition is bound to give hardy plants. There are certain plants we can recommend to one about to start in on natives, not alone because they are hardy and of easy culture, but attractive and representative as well. I will mention a few in the order of their blooming period. Also, these plants need nothing in the way of planting outside of regular garden conditions, CYNOGLOSSUM (blue) is very early; then SCARLET LARKSPUR and blue ACONITUM, COLUMBINE truncata, (red) and Coerulea (blue), Pentsemons Heterophyllus (blue) and Rupicola (pink), Dicentras, SILENE Californica and Hookerii, and for the latest bloomer a fine Zauschneria. Here, for about \$2.00, one can find a selection of natives. The bulbous plants are also easy to raise and offer no trouble to a gardener. Another selection of plants that is excellent for the shady side of the house includes the following: CLINTONIA, ASARUM CAUDATUM, BLUE-EYED GRASS, TRILLIUMS, some of the LILLIES and, of course, many of the FERNS.

CALIFORNIA WILD FLOWER NURSERY

Information concerning growing conditions and planting directions are sent with all orders.

ACHILLEIAS TOMENTOSUM, Yarrow—Evergreen and excellent for the rock garden.	2=
Very compact with flowers of bright yellow	.25
AQUILEGIA. Columbine. Chrysantha—Long spurred. Yellow flowers	.25
A. Coerules—Large blue flowered Colorado Columbine.	.35
A. Formosa—Crimson and scarlet	.25
A. Truncata—Our native, long blooming Columbine	.25
A. Saximontana—Dwarf. Long blooming rock plant. Quite rare	.50
A. Hybrids—A variety of colors	.20
ANDROSACES SARMENTOSA—Choice alpine. Small rosettes of green leaves and pink	
flowers	.35
ARENARIA MONTANA—Whie flowers in a mass of creeping foliage.	.25
A. Balearica—Tiny plant with white flowers. A. Caespitosa—Looks line fine green moss	.25
ASARUM CAUDATUM (Ginger Root)—Fine for a ground cover or around ferns	.25
AUBRETIAS—Mixed. A necessary plant for the rock garden	.25
CAMPANULA UNIFLORA (Alpine Harebell)—Large deep blue flowers	.50
C. Rotundiflora (Mountain Harebell)—A charming plant.	.50
C. Carpatica nana—Dwarf, with large blue flowers	.30
C. Isophylla—A trailing variety. Fine for creeping around rocks	.50
Ceratostigma Larpentae—A late flowering plant and well worth having	.25
Chlorogallum—A many branched stem bearing small white flowers, rises from many	
sword-shaped basal leaves	.10

flowers and fruit are worthy of a place in your garden	.25
Cynoglossum Grande (Hounds Tongue)—A mountain plant which has many friends.	.25
Many forget-me-not like flowers	.25
DELPHINUM NUDICAULE (Scarlet Larkspur)—A very popular native. Roots	.10
D. Hesperium—A tall blue variety	.10
Dianthus Deeltoides—Small red blossoms from a mass of tiny foliage	.25
DICENTRA FORMOSA (Dutchmans Breeches)—Fine fernlike foliage and pink flowers	.15
D. Glauca—Very delicate foliage and cream colored flowers. Rather new	.35
DODECATHEON HENDERSONI (Shooting Star)	.20
ERIGERON GLAUCUS (Beach Daisy) —Blooms nearly the entire year. Pink	.25
E. Uniflorus (Alpine Daisy)—Violet	.25
ERIOPHYLLUM LANATUM—A hardy, gray leaved plant for dry locations	.20
ERYSIMUM ASPERNUM—The popular Western Wallflower	.20
FERNS	
BIRDSFOOT (Pellea Ornithopus)—Stiff, gray rock fern. For sunny spots	.35
BRAKE (Pteris)—A large leafed fern for dry locations	.25
CHEILANTHES CALIFORNICA—Dainty fern for shady crevices	.35
C. GRACILLMA (Lace Fern)—Grows fine in the rocks when established	.35
CHAIN FERN (Woodwardia Radicans)—Grows to over 12 feet	
COFFEE FERN (Pellea Andromedaefolia)—Appeals to all fern fanciers	
FIVE FINGER FERN (Adiantum Pedatum)—Fine for the house as well as garden .50, .75,	
GOLD FERN (Polypodiom)	.35
SIERRA CLIFF BRAKE (Pellea Breweri)—Quite a rare fern	
SWORD FERN (Polystichium Minitum)—Always a garden treasure	.75
GERANIUM SYLVATICUM—A native from the far north. A gem	.50
GEUM (Lady Stratheden)—The well known golden variety	.25
G. Mrs. Bradshaw—Large scarlet flowers	.25
G. Montanum—Golden flowers. A wonderful addition to your garden	.50
HEUCHERA MICRANTHA (Alum Root)	.20
IRIS MACROSIPHON VAR PURDYI—Pink or white. Each	.20
I. Douglasiana (Mountain Iris)—Cream colored	.20
I. Missouriensis (Western Blue Flag)	.20
KNIPHOFIA (Tritoma or Red Hot Poker)	.25
LAVENDULA VERA—Fine large plants of true lavendar	.25
LEWISIAS—These are among the very best of rock garden plants.	•))
L. Finchii—One of the largest lewisias. Striped pink flowers	.50
The or the first target of the first transfer print the market and the first target of	

L. Heckneri—Pink and white flowers	.50
	.30
L. Howellii—Flowers are deep rose, striped with white	
L. Leeana—Slender leaves and rosy-purple flowers.	.25
L. Rediva—A very showy dwarf. Flowers pink and white	.25
LINNEAE BOREALIS (Twin Flower Vine)—One of the finest creeping ground covers	
MELANDRINUM DURANUM—A native from the far north. Many purple pink flowers	
	- /
on a single pedicel, rising from a thick crown of leaves	.50
MESEMBRYANTHENUM—A very attractive and unusual addition for a shady and moist	
spot in the rock garden	.50
MERTENSIA (Tall Chiming Bells)—Bell-shaped pink and lavender flowers	.25
MIMULUS CARDINALIS—One of the finest mountain plants	.25
NEPETA GLECHOMA—A grand ground cover. Thrives under any condition	.25
OENOTHERA CAESPITOSA (Stemless Primrose)—Large, pure white flowers that turn	
	20
pink. A happy plant to have in the garden	.30
OXALIS OREGONA (Redwood Sorrel)—Plant under ferns or in deep shady places. It	
spreads rapidly and has attractive, rose colored flowers	.15
PRIMULA AUGUSTIFOLIA (Fairy Primrose)—A dwarf from the high mountains, with	*
rose-purple flowers	.50
PENTSTEMONS (Corymbosis)—A hardy, shrubby variety with scarlet flowers	.50
P. Cardwelli—Shrubby creeper with bright blue flowers.	.35
P Fruticosus A fine nink flowering plant	25
P. Fruticosus—A fine pink flowering plant.	
P. Glaber—Many blooms of blue and pink tints.	
P. Heyerophyllus—Flowers are a deep blue that fade into lavender and last all	
summer. One plant will cover three square feet with a mass of blooms	
P. Humilis—A dwarf form with dark blue flowers.	
P. Menziesii—A blue flowered creeper	
P. Rupicola—Compact and dwarf in habit. Rose pink flowers	.35
P. Superb—Gloxiana shaped blooms of varied colors.	.50
P. Unilateralis—Long spikes of purple blue flowers	
P. Glaucus—Reddish purple flowers. Rather unusual	
PASQUE FLOWER (Anemone Patens)—Large lavender flowers with gold centers. One	
of the most beautiful and conspicuous of the Spring flowers	.50
PHLOX SUBLATA ROSEA—A dense and compact plant covered with flowers of a deep	
	25
#000 00 0#	
rose color	.25

NATIVE BULBS

ALLIUM FALCIFOLIUM—Attractive and hardy plants with rose purple flowers. Plant about 2 inches deep in the sun)5
BRODIAEAS—Early flowering, hardy Spring flowers. Plant 2 inches deep in loose, gritty, well drained soil.)4
B. Coccinea (Floral Firecracker)—An interesting flower having the appearance of a bunch of firecrackers. Large bulgs)5
B. Grandiflora (Harvest Brodiaea)—Glossy purple flowers)5
B. Laxa—An umbel of blue flowers	
Mixed Collection of Brodiaeas—6 varieties, 12 bulbs	U
,)7
ZYGADENUS FREMONTII—Related to the Camassia. Light yellow flowers	
Z. ELEGANS (Wand Lily)—Dwarf with a spikelike raceme of cream-colored flowers	2
	.=
)5)8
C. Amabilis (Yellow Lantern))5
)5
C. Clavatus—The blooms of deep yellow are the largest of the Mariposas	12
	0
C. Lilacinus—Lavender colored blooms)5
C. Maweanus (Cat Ears)—A low growing plant with delicate purple flowers)5
and grow in any soil. The coloring, that is in the range of colors, cannot be	
equalled. They are the finest representative of the Mariposa (butter-fly tulip).	
C. Vesta—White flushed with pink and lilic. Some are very nearly purple. Large bulbs)5
C. Venustus El Dorado—An excellent strain of mixed colors; white pink and purple0	
Mixed Collection of Calochortus—2 each of 9 varieties	00
ERYTHRONIUMS (Dog's-Tooth Violets)—These are a woodland plant, preferring light	
shade and do well in many kinds of soil. Plant upright about 3 inches deep. These charming flowers have a host of friends and are a joy in the garden as well as	
excellent for bouquets. Very hardy.	
)4)6
)5
E. Johnsonii—Beautiful shades of rose pink	10
	50
FRITILLARIAS—These are among the earliest of our Spring flowers. Recurva and Lanceolata are woodland plants, needing some shade. Plant 2 to 3 inches deep in	
loose, gritty, well drained soil. The Purdyi needs full sun.	
F. Lanceolata (Mission Bell)—Flowers in form of pendant bells. Green and brown	25
mottled	05
all wild bulbous plants. Scarlet or orange and scarlet bells	07
F. Purdyi—A dwarf about 6 inches high. White and greenish bells. They look as if	10
they had been variables with each for the same of the	10 70
CALIFORNIA LILIES	
L. HUMBOLDTII, BOLANDERI, RUBESCENS and COLUMBIANUM need sheltered positions from heavy winds, in partial shade; although we have many of these in the	
full sun and the results have been very satisfactory. Give them good drainange, and plant not less than 6 inches from the surface. Never move a lily bulb if you can avoid it.	
L. Columbianum (Oregon Lilly)—Bright reddish vellow, spotted with purple. Stem is	
slender. 2 to 4 feet high. Fine bulbs. L. Humboldtii—Large orange red flowers, spotted with small maroon dots. Often	30
these lillies reach up to 10 feet. Fine bulbs	40
L. Bolanderi—A very rare lily seldom over 3 feet with deey red flowers. Fine bulbs	75

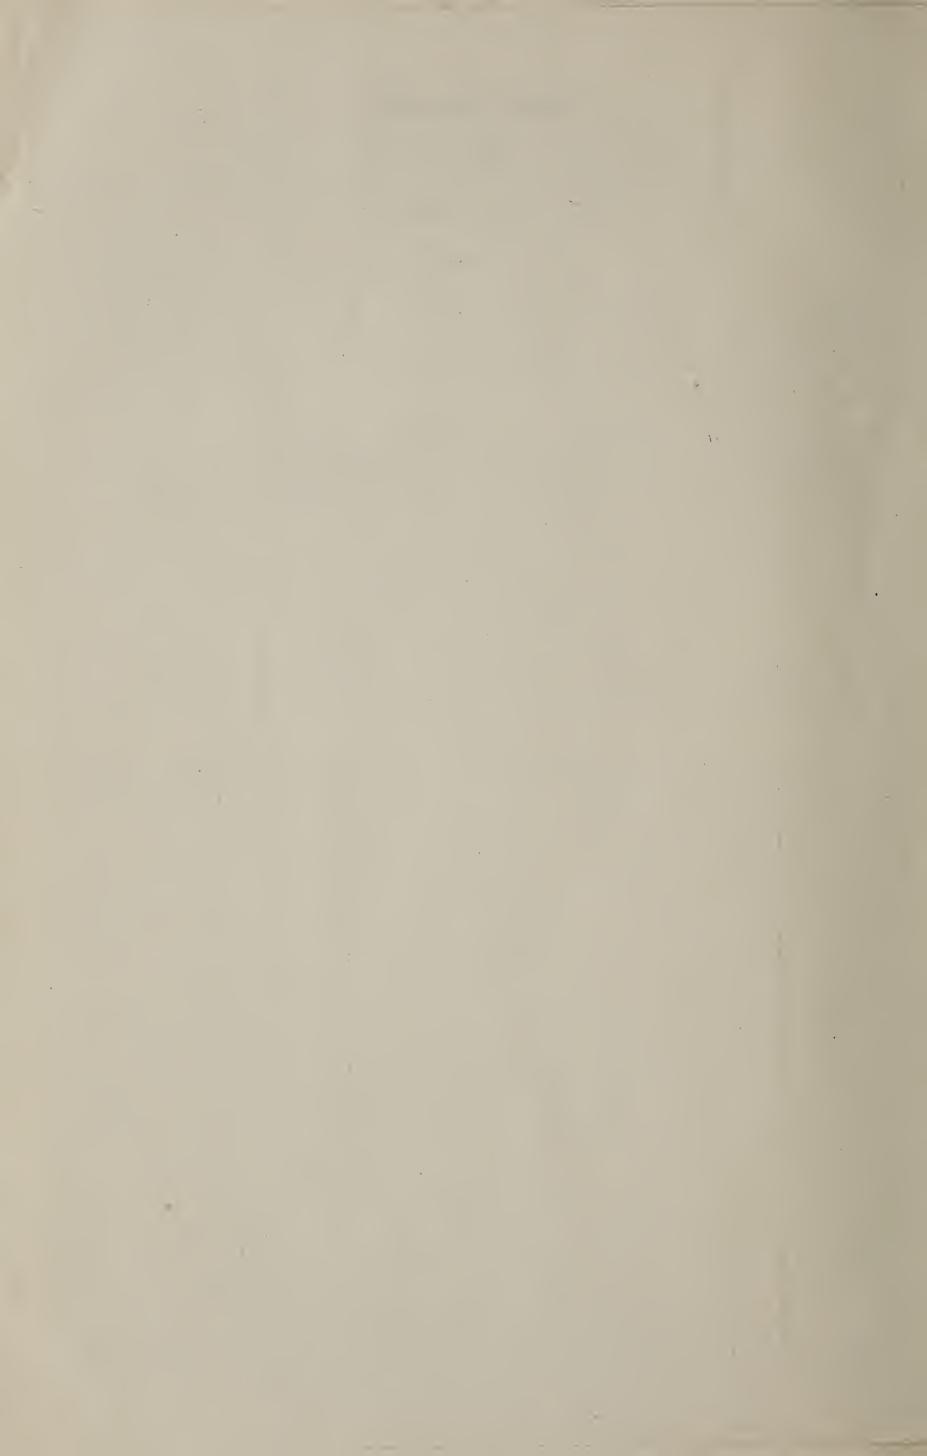

L. Rubescens (Redwood or Chemise Lilly)—Perhaps the hardiest as well as one of the	
finest lillies in the State. We have many lillies which reach a height of 12 feet,	
with 30 to 50 flowers. They are nearly white with purple dotes on opening, and then turn to a deep pinkish purple. Fine bulbs	0
The following lilies belong to the bog lilies and grow naturally along streams on lake	
borders or in damp, moist meadows. We grow most of these in the fern beds,	
but we also have some in the gardens where we can give them sufficient moisture,	
and they do very well. The best soil is a light sandy loam with plenty of leaf mold.	
Plant about 3 inches deep. Good drainage also necessary. L. MARTIMUM—Deep crimson flowers. A distinctive and unusual lily, very rare. Seldom	
over 3 feet high. Fine bulbs	35
L. PARDALINUM—Bright orange and scarlet blooms, dotted with dark maroon spots.	
They grow to 8 feet and often have 30 blossoms on a stem. Large bulbs	25
L. PARRYI (Lemon Lily)—Clear lemon colored flowers on stems seldom over 5 feet.	
Due to its unusual color it is a very interesting addition to your garden. Large bulbs .8	30
L. ROEZLII—A rather short slender-stemmed lily with flowers similar to the Pardalinum.	10
TRILLIUMS	
Among the earliest of our Spring flowers the TRILLIUM is one of the finest plants for	
shady spots around the gardens. T. Sessile—Very strong and hardy plants. Pure white flowers. Large bulbs	18
T. Ovatum (often called Wake Robin)—Flowers open white and turn pink. Large	JG
bulbs	8(
HEMEROCALLES FULVA (Day Lilies)—Large, rich, copper colored flowers. Very	
hardy and excellent for the borders of pools	25
TIGRIDIAS (Tiger Flower)—An exquisite plant with habits of the Gladiolus. Rich,	25
,	ر.
CYPRIPEDIUMS (Lady's Slippers)	
C. Acaule (Pink Lady's Slippers)—Rose colored flowers	
C. Fasciculatum—Dwarf, with brownish flowers. Very rare	
C. Montanum—Large white flowers with brown spots	40 20
SHRUBS	-0
) 5
ARABIS BREWERI—Compact dwarf with red purple flowers	35
and moist location	35
AZALEA (Rhododendron Occidentalis)—Fragrant pink and cream flowers. Needs shade	
and moisture	50
CALYCANTHUS OCCIDENTALIS (Sweet Shrub)—Both leaves and blossoms are	5 0
fragrant. Shade and moisture	50 75
	25
CLEMATIS LASIANTHA—A very popular and hardy vine	35
CORNUS NUTTALLI—Large flowering Dod Wood	75
CINQUIFOIL (Potentilla Fruticosa)—A shrub that needs considerable moisture, bearing	75

SEEDS

The seeds listed below are the same as we plant here, but we cannot guarantee their productiveness, as many adverse conditions may arise in their culture. We find the raising of wild plants very simple if given the care that one would give to domestic plants.

Previous to this year we sold seeds for 25c per pkt. This pkt. contained one pennyweight, which was too much seed for the individual gardener. This year we are reducing the content of our pkts. and selling them for 10c. The minimum order being 50c.

Please mention substitutes in case we are short of some seed ordered.

Wild Flowers for Your Home

Our location, 160 miles north of San Francisco in the coast range, 35 miles from the Pacific, is very advantageously situated for the collecting and propagating of wild plant life. Our nursery lies at an altitude of 2800 feet and we have considerable cold weather which tends to harden our stock

OUR AIM is to deliver buibs, seeds and plants of wild flowers, ferns and shrubs at a reasonable price. We are glad to answer inquiries and if we cannot answer or fill your orders we will tell you where you can secure the information.

When on the Redwood Highway come and see us. We are seven miles from Laytonville in Mendocino County. It will be best to phone us from Laytonville.

Mr. and Mrs. E. M. Calmer.

TRILLIUM
